

SOUHILA DAHMANI

Senior Product Manager | High-Scale Commerce, Lifecycle & AI-Enabled Product

Manitoba, Canada | +1 204 688 8347 | souhiarchi@gmail.com | linkedin.com/in/souhila-dahmani-130791

Languages: Fluent in English & French

CORE COMPETENCIES

Strategic Vision: Roadmap planning, GTM strategy, and business case development for high-scale platforms.

Commerce & Fintech: Retail media auctions, API-based integrations, and complex payment/compliance workflows.

AI & Agentic Product Scoping: Defining agent tasks, tool boundaries, guardrails, and success criteria; writing structured PRDs and prompts AI coding agents can execute against.

Rapid Prototyping (Vibe Coding): Taking concepts from research to working multi-module prototypes on AI build platforms, then evaluating output quality and trade-offs.

Systems Thinking: Simplifying complex Martech/CRM stacks and designing for scalability.

Leadership: Directing cross-functional squads (Eng, Design, Data) and managing senior stakeholder alignment.

CERTIFICATIONS

- Certified Digital Product Manager (AIPMM)
- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner

TECHNICAL SKILLS

Tools: Tableau, SQL, Jira, Asana, Figma, Braze, Zendesk, TopSort, Branch.io

AI & Prototyping: LLM assistants for research & PRD generation, AI coding agents, AI app-build platforms, prompt engineering

Frameworks: Agile (Scrum/Kanban), A/B testing, API design and feature architecture (FE/BE), release cycle management

EDUCATION

Master of Innovative Project Management — Polytech Sophia Antipolis, Nice, France

Award: Best Graduation Project for “Vectura” (A Futurist Supply Chain Concept).

Engineering Degree in Architecture & Urban Design (Smart Cities) — EPAU, Algiers, Algeria

SUMMARY

Strategic Product Leader with over 8 years of experience (6+ in high-scale food delivery) driving multimillion-dollar revenue growth and system-wide efficiencies. Proven track record in owning end-to-end product lifecycles, from **Merchant/Partner integrations** to **Loyalty ecosystems**. Expert at simplifying complex technical architecture into seamless user experiences. An active **AI enthusiast** (AWS Certified AI Practitioner) who scopes agentic AI workflows and builds prototypes hands-on to pressure-test ideas before committing engineering time.

PROFESSIONAL EXPERIENCE

Senior Product Manager – Retail Media & Martech Integrations
July 2025 – Present | SkipTheDishes (Just Eat Takeaway), Winnipeg, MB

- **Domain Ownership:** Lead the end-to-end strategy and execution of a multimillion-dollar auction-based sponsored placement infrastructure (TopSort APIs).
- **System Scale:** Optimized post-order ad integrations and upgraded the core Martech stack (CMS, CRM, MMP) to ensure high performance and legal compliance.
- **Outcome:** Projected multimillion CAD annual revenue growth through advanced segmentation and geo-targeting.

Product Manager – Customer Lifecycle

April 2024 – July 2025 | SkipTheDishes, Winnipeg, MB

- **Execution & Migration:** Directed critical system migrations (MMP/Branch.io, CS messaging/Zendesk) with zero operational downtime.
- **Efficiency & Automation:** Deployed self-serve refund automation that reduced inbound support volume by 20,000 chats per week.
- **E-commerce Expansion:** Spearheaded Google Merchant Center setup — catalog management and feed strategy — unlocking new sales channels.

Product Manager – Customer Loyalty & Retention

March 2020 – April 2024 | SkipTheDishes, Winnipeg, MB

- **Product Vision:** Conceived and launched a new loyalty program, achieving a \$20M valuation within the first 2 years.
- **Cross-Functional Leadership:** Central point for Legal, Finance, Marketing, and Engineering to design point-based gamification “Challenges”.

Product Owner – Customer Acquisition

August 2019 – March 2020 | SkipTheDishes, Winnipeg, MB

- **Growth:** Collaborated on SEO and referral programs, resulting in a 10% increase in new user sign-ups.

SELECTED INDEPENDENT PROJECT

Self-Directed Consumer App Prototype — AI-Assisted Build

2026 | Personal R&D

- **Discovery to Spec:** Analysed an underserved consumer category, identified the whitespace, and translated it into a full PRD — MVP scope, data model, cloud architecture, privacy constraints, and success metrics.
- **Agentic AI Scoping:** Authored build prompts and guardrails so AI coding agents could execute the spec autonomously in verifiable slices, with explicit escalation points.
- **Vibe Coding & Evaluation:** Built the prototype on two AI app-build platforms from one spec, benchmarking fidelity, architecture, and cost.
